## SUMMARY

A dynamic and passionate college student with knowledge in MERN Stack (Mongo DB,Express js,React js,Node js) and also technologies like typescript and backend framework like NestJS .To associate with an organization which dynamically gives me a chance to improve my knowledge, upgrade my skills and could take part in the growth of the Organization.

## PROJECTS

### ECOMMERCE WEBSITE | MERN

🔗 [https://github.com/ANU181-W/Full\\_Stack-Ecom](https://github.com/ANU181-W/Full_Stack-Ecom)

Led the development of a feature-rich E-commerce platform using the MERN stack, offering a seamless and secure online shopping experience. The application includes product listings, user authentication, shopping cart functionality.

- Tech Stack:-react js,css3,tailwind css,javascript,MUI,express js,node js,swiper js,postman,mongoDB ,github.

### MOVIE TICKET BOOKING WEBSITE | MERN

🔗 <https://github.com/ANU181-W/Full-Stack-Projects>

Developed a comprehensive Movie Ticket Booking platform using the MERN (MongoDB, Express.js, React.js, Node.js) stack. The application allows users to browse movies, select showtimes, choose seats,book tickets ,delete booking

- Tech Stack:-react js,css3,tailwind css,javascript,MUI,express js,node js,swiper js,postman,mongoDB ,github.

### Dressland Uniforms| Full Stack Website

🔗 <https://github.com/ANU181-W/dressland-backend>

Developed a comprehensive full-stack web application for Dressland Uniforms, an online platform specializing in the sale and customization of uniforms for various sectors, including corporate, educational, and healthcare institutions. The project aimed to create a seamless user experience from product browsing to checkout, while ensuring robust backend functionality for inventory management and order processing.

- Tech Stack:-  
VueJS,NuxtJS,NestJS,Typeorm,Mysql,Typescript,Element+,Razorpay.
